To whom it may concern

Re: Letter of Reference for Garcia-Teague

This letter is to serve as a point of reference for Gil Garcia and his firm, Garcia Teague. In my previous position as a Principal with Steven Ehrlich Architects in the mid 1990's we successfully completed a commission for the City of San Jose, the Biblioteca Latinoamericana. Our role was as the Design Architects and Gil led a team as Executive Architect for the project: a library, community gymnasium and urban plaza. Throughout the process Gil was a trusted and vital member of the team, who cared deeply for the integrity of the design and delivered the same through an excellent set of construction documents under strenuous (and record breaking) schedule pressures. He knows the City agencies and delivery processes and has strong connections with the local engineering and construction industry partners.

The project proceeded smoothly through construction and has become an award winning project for the City and for all concerned. I recommend him highly as a local partner.

Sincerely,

A handwritten signature in black ink, appearing to read 'Nick Seierup', with a horizontal line extending to the left and a small mark below the main signature.
